S300 series Pressure transmitter

S300G-R040-05-J

Ident No. 300104053

- Welded all-metal measuring element
- Wide pressure range, accuracy up to 0.5%FS
- Small size, Stainless steel shell.

Technical parameter

Electrical parameter

| Temperature drift | 0.2% FS/Year | | | |
|---|------------------|--------|----------|--|
| Accuracy | ±0.5% FS | | | |
| Thermal zero drift | < ± 0.15% FS/10K | | | |
| Heat drift | < ± 0.15% FS/10K | | | |
| Response time | 0.5ms | | | |
| Maximum range (bar) | 6~20 | 20~200 | 200~2000 | |
| Overload pressure (bar) | 3X | ЗX | 2~2.5X | |
| Burst pressure (bar) | 5~10X | 5~10X | 3~5X | |
| Operating Voltage | 1830Vdc | | | |
| Power supply current | 5mA | | | |
| Output type | 420mA | | | |
| Measuring range | 040bar | | | |
| Medium temperature | - 40°C~120°C | | | |
| Ambient temperature range - 40°C~120°C | | | | |
| Compensation temperature range - 40°C~120°C | | | | |

Mechanical parameter

| Material of shell/liquid receiving part | 304 stainless steel | |
|---|----------------------|--|
| Process connection | G1/4 external thread | |
| Maximum torque of shell nut | 35Nm | |
| Electrical connection | Connector M12 x 1 | |
